OUR HOSIERY DEPARTMENT

THURSDAY, JUNE 10, 1875

CALIFORNIA REPUBLICAN CONVENTION.

The Republicans of California hold their State Convention at Sacramento to-day, for the purpose of nominating a full set of State officers. We believe that the present Governor of the State, Pacheco, will be the nominee of the Republican Convention, and if he is, the next Governor of California will be a Republican, for Pacheco is a very popular, and a very good man, he is exceedingly popular in the southern portion of the State, and will run well in all sections. In our opinion he is the most available man the Republicans have. He is not a corporation man at all—and it may be that the Sargent Gorham-Railroad-Corruption crowd will endeavor to beat Pacheco and foist some one of their pliant tools on the Convention. But if they do, good bye to the Republican party of California. It won't know what struck it when September comes. The Convention which meets in Sacramento to-day has important work. If it shall present to the people Pacheco, and the balance of the ticket be composed of good men, the party will win the coming fight. Otherwise the struggle will be a hard one, and the chances second best.

**A CORRECT VIEW.**

In answer to an assertion made by one of the Central Pacific organs that there was a possibility of Cornelius Vanderbilt and Jay Gould becoming the owners of the Central Pacific, the *Virginia Enterprise* thus treats the question:

"Some few in the Pacific metropolis might regret the sale. We of Nevada should not. We have had to submit to the outrageous exactions of that Company ever since its first train reached our State. We have had enough, in fact, of Stanford and his *co-operators*. We could wish in a business way, that we could bid them an eternal farewell. But as individual members of a Director we should be glad to meet them while time lasts. We should be happy, for instance, to partake of a banquet with Stanford, after his horse 'Occident' had been almost distanced in another race and hear him descant, in eloquent language, of the manner in which he had been peckyed out of the purse which was justly his due. And then, to make up for his loss, we should also rejoice to see him increase the freights and fares between the Bay and Reno, in order to get even with the money he had lost on the race. All these things are pleasant to contemplate should the present management of the Central Pacific continue. Another bright contemplation of the past is the fact that ten Eastern freight cars in one train, destined for Reno could not be detached at that point but had to be taken over the mountains as far as Sacramento—or were quietly side-switched—which amounted to the same thing—and the freighter had to wait the return of the freight trains from San Francisco and Sacramento before his property could be delivered. And then the charges—they were most liberal. They were never double the price to Sacramento and back over the cost from New York to Sacramento. But in the case of a few coaches from Concord, New Hampshire they were a little more than doubled. Fleet, however, is owing to the proximity of Concord. The people of Nevada will not care for the train of the Central Pacific to Jay Gould—or to the devil, for that matter. We have become so reckless over 'em that we wouldn't toss up for heads a tally between Stanford the Christian and Jay Gould the Mephistopheles. So let the sal proceed. Its consummation might open up a direct trade with the East which we are now denied."

A long consultation took place in New York Wednesday between the great railroad magnates of the country in regard to freight and passenger tariffs. The object was an increase. But no determination was arrived at. The President of the Erie Company, which is now in his hands as Receiver, hoped that so long an understanding would be reached which would place all the roads on a plying basis.

The following is a statement of the business transacted in the United States Mint at Carson City during May 1875. Value of gold deposited \$25,276.49 silver \$35,274.21 total \$623,550.70 coinage executed \$803,672.88

**GENERAL B** ELECTRIFIES Sherman Memons, and hopes that all those who bore a prominent part in the battles for the maintenance of the Government will write all they know thereof.

The Government will in the end lose the most of the money advanced to both of the overland companies.

**AN HONEST ASSESSOR.**

We congratulate the people of San Francisco upon having one honest official—a man who has discharged the duties of his office without fear or favor, it seems. We refer to Aleck Badlam, the City and County Assessor. The personal property roll for 1875 was turned over by him to the Board of Supervisors on Tuesday afternoon. It aggregates not much less than \$150,000,000, whereas the personal property roll last year was but \$105,500,000, an increase of over \$40,000,000. The increase is principally upon large corporations and rich men. The Hibernia Bank—the largest assessment in the list—is assessed at \$13,000,000 against \$11,400,000 last year, the Spring Valley Water Works, which were reassessed for but \$500,000 by Rosener, last year, are assessed by Badlam at \$7,500,000 a little increase of just \$7,000,000, the Gas Company is assessed for \$7,000,000, instead of \$600,000 last year—almost as big an increase, the Bank of California at \$3,000,000, against \$2,000,000 last year, the Merchants' Exchange Bank at \$1,500,000 against \$101,000 last year, and all the other banks seem to be raised in proportion. The Central and Southern Pacific are assessed at \$604,000 against \$185,900 last year, Michael Reese is assessed at \$509,000 against \$200 last year, Wm C Ralston at \$565,000 against \$387,000 last year, John Parrott at \$556,000 against \$159,000 last year, Wm Shalon at \$540,000 against \$15,000, Alvina Hayward at \$732,000 against \$233,000 last year, James Phelan who last year was not assessed at all on personal property is this year assessed at \$540,000, Nichols Luning is this year assessed at \$500,000 against \$100,000 last year, D O Mills, who was not assessed at all last year, is assessed for \$300,000, Thomas Bell is assessed at \$500,000 against \$190,000 last year, E J Baldwin at \$264,000 against \$3,700. Shipping is assessed at \$9,000,000 against \$4,000,000 last year. Some of these assessments may be too high, but there is no doubt that they come a good deal nearer the just figures than the assessments made last year. The effect of this addition to the assessment roll will be to decrease taxes, and this year the total tax will not be over a dollar and a half on each \$100, whereas last year it was two dollars and ten cents. The people now see the difference between a dishonest, rash Assessor like Rosener, and an honest one like Badlam. They should "stand in" with him, irrespective of party, and not allow the corporations and a few rich men to defeat him for the election this fall. It is only by sustaining such men that we can ever expect to have a just administration of affairs.

A long consultation took place in New York Wednesday between the great railroad magnates of the country in regard to freight and passenger tariffs. The object was an increase. But no determination was arrived at. The President of the Erie Company, which is now in his hands as Receiver, hoped that so long an understanding would be reached which would place all the roads on a plying basis.

The following is a statement of the business transacted in the United States Mint at Carson City during May 1875. Value of gold deposited \$25,276.49 silver \$35,274.21 total \$623,550.70 coinage executed \$803,672.88

**GENERAL B** ELECTRIFIES Sherman Memons, and hopes that all those who bore a prominent part in the battles for the maintenance of the Government will write all they know thereof.

A GIGANTIC Black Hills invasion is being organized in Philadelphia. It is said the organization will number fifteen thousand.

**GOVERNOR ANTELL**, of Utah, has been appointed Governor of New Mexico, vice Geddings, deceased, and George W. Emory has been appointed Governor of Utah.

**INTERESTING TO THE LADIES OF RENO AND VICINITY**—The new dress making establishment opened by the Misses Vance, on Plaza street, opposite the freight depot, will receive and make to order in the latest styles all kinds of plain and fancy sewing \*

**EL DORADO SALOON**—Conrad Zick has just taken charge of this place, opposite Wintermantel's Hotel. Every attention paid to the patrons. Musical headquarters \*

**BOOTS AND SHOES, ETC.**—It is an established fact that these articles can not be got along without Hence it necessarily follows, that in the purchase of them we should not only look to price but to quality, for none of us desire to pay an extortionate price for an inferior quality of boot or shoe. There is no doubt but that John Sunderland can give us complete satisfaction in both respects. Then to Sunderland's, (on Virginia street), we will go, for boots, shoes, slippers, and all goods of that class \*

**CARR TUNNEL AND MINING CO.**—Location of works, Peavine, Washoe county, Nevada.

**Notice**—There is delinquent upon the following described stock of the Carr Tunnel and Mining Company on a count of assessment (No 2) levied on the 4th day of May 1875, the several amounts set opposite the names of the respective shareholders is as follows:

THE CIRCUS.—To-morrow afternoon and night the greatest circus and menagerie ever organized on this coast, or on any other coast, will exhibit in Reno. Montgomery Queen's great show will appear here. He has the best trained horses, the most accomplished riders and the best general appointments to his circus ever seen in any country. Special agents have been sent to the jungles of India, the wilds of Africa, and the almost unapproachable parts of Asia, for the rarest living specimens of the zoological kingdom, and the result is that Mr. Queen has a collection of animals which are the wonder and admiration of every one who sees them. They are, in fact, living wonders, and furnish highly instructive lessons in natural history. As to the circus *per se*, the pretensions are all quite as genuine. There is not a member of the company who is not a star in his department. Mr. James Robinson and Mr. Charles Fish, the world's great acrobatic stars, head the list. Miss Mollie Brown, the dashing and graceful young equestrienne, comes next. Her back somersault is a remarkable achievement, and deserves all the excited applause which it never fails to receive. Then there are wonderful trapeze and acrobatic performers, and many other startling features, which establish the claims of this mammoth combination circus to universal favor. For full particulars see bills and advertisement.THE CIRCUS.—To-morrow afternoon and night the greatest circus and menagerie ever organized on this coast, or on any other coast, will exhibit in Reno.
